COLD STORAGE REPORT..
AS OF OCTOBER 1, 1942

Reports to the U. S. Department of Agriculture on certain specified commodities held in cold storage warehouses and meat packing plants as of October 1, 1942 indicated increases during September in stocks of frozen fruits and vegetables, frozen poultry, frozen and cured beef, lamb, and mutton. However, holdings of creamery butter, cheese, shell and frozen eggs, frozen and cured pork, trimmings and lard decreased from those of a month earlier. The out-of-storage movements of butter, cheese, and eggs were significantly heavy.

Stocks of butter totaling 126 million pounds were 77 million pounds below those of October 1, 1941 and 37 million below the 5-year (1937-1941) average. All cheese holdings totaled 254.6 million pounds and although withdrawals were relatively heavy during September, October 1 stocks were 66.2 million pounds above those of a year earlier and 111.7 million pounds above average. Egg holdings totaling the equivalent of 11.6 million cases were 1.4 million above those of a year ago and 2.2 million above average.

Increases in stocks of frozen fruits, vegetables, frozen poultry, beef and lamb and mutton were unusually heavy for the period. Frozen fruits totaling 222.3 million pounds were 10.8 million pounds heavier than a year earlier; frozen vegetables with October 1 stocks of 115.5 million were 16.3 million above October 1 a year ago; poultry holdings 116.5 million pounds were 19.8 heavier than last year and beef stocks 95.2 million or 21.8 million above a year ago.

The first report for the season on cold storage holdings of apples, not entirely complete due to difficulty in obtaining fully returns during the harvesting period, indicate the equivalent of 9.9 million bushels in cold storage on October 1.

The amount of space occupied in public cold storage warehouses on October 1, 1942 was reported at 75 per cent for coolers and 78 per cent for freezers. This compares with September 1 occupancy of 70 percent coolers and 77 per cent freezers.

Contents of October 1, 1942 Cold Storage Report

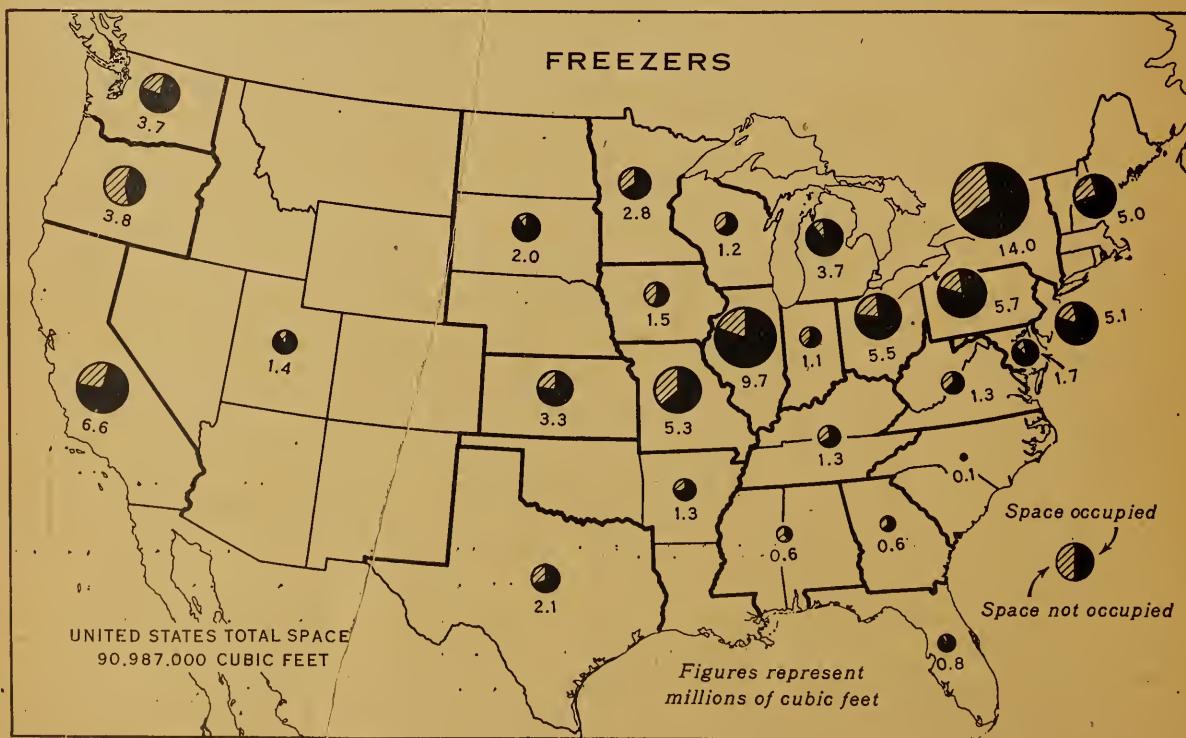

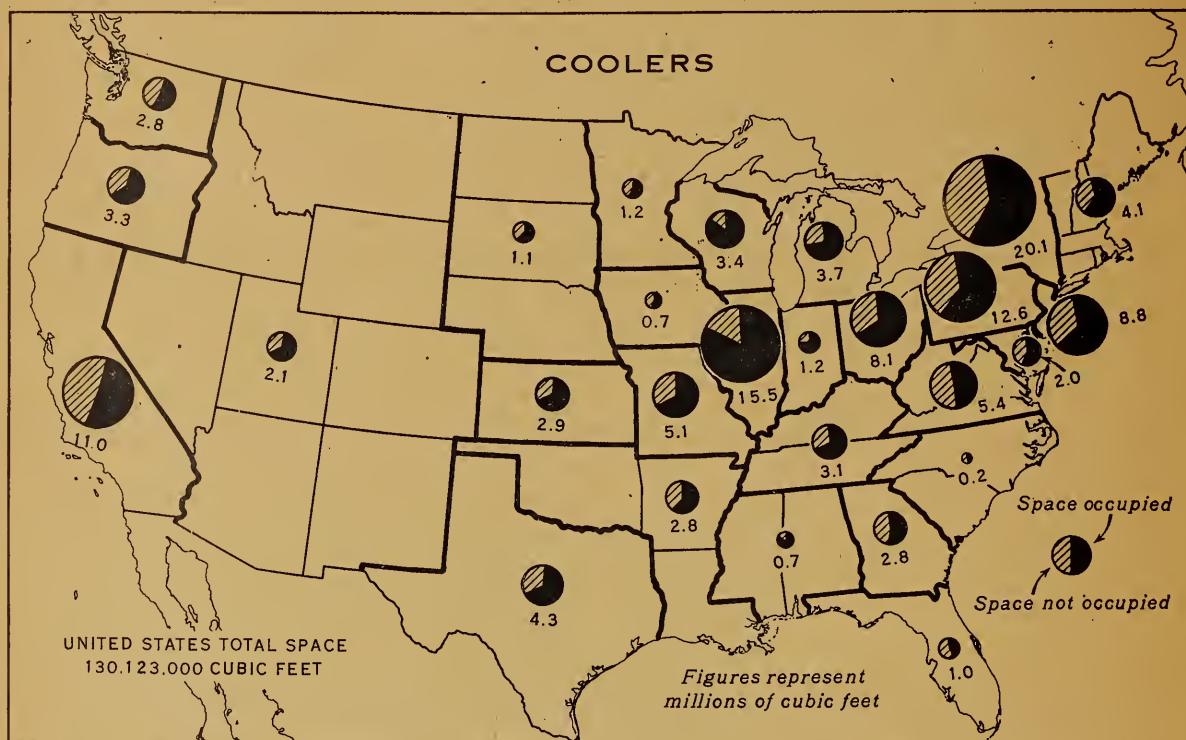

Separate tables appearing in this report represent holdings of the following groups of commodities on hand in cold storage warehouses and meat packing plants on October 1, 1942, with comparisons for previous related dates:

1/ Reported to the Department of Agriculture as of June 16, 1941. Some revisions have been made in the figures due to reclassification of certain warehouses

2/ Percentages for the periods covered here were made as nearly comparable as possible

3/ Preliminary

4/ Weighted average of the occupancy for geographic divisions using the corresponding net piling space as weights.

FRESH FRUITS

It is somewhat difficult to obtain complete returns on the cold storage situation on apples this early in the season. However, it is indicated that on October 1, 1942, the equivalent of 9,910,000 bushels had been placed. Included in the figure are 401,000 bushels owned by the A. M. A.

(See table on page 10 for October 1, 1942 holdings by geographic divisions)

FRUITS AND VEGETABLES

Total stocks of frozen fruits were 222,338,000 pounds compared with 211,503,000 for October 1, 1941 and the 5-year (1937-1941) average of 159,629,000 pounds. Frozen vegetable holdings were 115,496,000 pounds compared with 99,238,000 a year earlier. Of the total fruits reported 40,154,000 pounds were unclassified as to variety and 10,917,000 pounds of vegetables were not classified

The far from normal cold storage situation on manufactured dairy products noted last month continued. October 1, 1942 stocks of creamery butter were reduced during September to 125,994,000 pounds. This quantity was 76,963,000 pounds below October 1, 1941 and 37,014,000 below the 5-yr. (1937-41) average. All cheese stocks totaling 254,554,000 pounds were 66,217,000 pounds above those of a year earlier and 111,682,000 pounds above average. The Federal Surplus Commodities Corporation owns 450,000 pounds of butter and 91,735,000 pounds of cheese that are included in total holdings. Shell and frozen egg stocks declined by 1,374,000 cases and 37,174,000 pounds respectively. October 1 holdings of 5,377,000 cases and 234,868,000 pounds the total equivalent of 11,640,000 cases exceeded those of a year earlier by 1,441,000 and the 5-year average by 2,218,000 cases. Federal Surplus Commodities Corporation owned stocks were 5,695,000 pounds of frozen eggs. Reports from egg driers not entirely complete show 1,687,000 cases of shell and 67,481,000 pounds of frozen eggs earmarked for drying against commitments on dried egg contracts for delivery to the F.S.C.C. The commitments are listed in the box below:

There was an unusually heavy into storage movement of poultry during September. The increase from September 1 totaled 29,890,000 pounds. October 1 stocks were 116,535,000 pounds and exceeded those of a year earlier by 19,634,000 pounds and the 5-year average by 42,060,000.

1/ Frozen eggs are converted on the basis of 37.5 pounds to the case.

2/ SPECIAL NOTE: 82 percent of total frozen eggs reported as of October 1, 1942, were classified as follows: Whites - 19 percent; Yolks - 14 percent; and mixed - 67 percent.

MEATS AND LARD

Total stocks of all frozen and cured meats were reduced during September by 66.1 million pounds. Beef holdings were increased by 11.9 million pounds but pork holdings were reduced by 67.9 million pounds. Stocks of beef totaling 95.2 million pounds on October 1, 1942, were 21.8 million heavier than those of October 1, 1941 and 50.7 heavier than the 5-year (1937-1941) average.

Pork stocks were reduced by 67.8 million pounds to 268.8 million on hand October 1. This quantity is 102.6 million pounds below that of October 1 a year ago and 43.3 million below average.

There were 11.3 million pounds of frozen lamb and mutton on hand this period compared with 4.1 million a year earlier. The five year average figure is 2.9 million pounds. Stocks of trimmings totaling 79.9 million pounds exceeded those of a year ago by 16.3 million and the 5-year average by 24.5 million pounds.

Lard and rendered pork fat stocks were reduced materially during September. The 62.3 million pounds on hand October 1, 1942 was 155.7 million pounds below that on October 1, 1941 and 76.7 million below average. Federal Surplus Commodities Corporation holdings included in the total figure were reported as 38.9 million pounds of frozen and cured pork cuts and 3.6 million pounds of lard and rendered pork fat.
